Help Students Discover the World, One Book at a Time
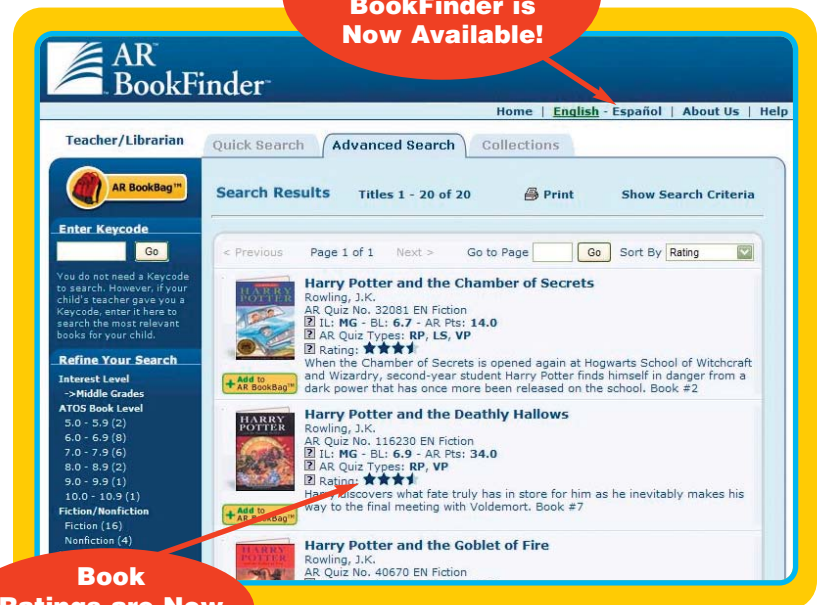

AR™ BookFinder™

Searching for books that have Accelerated Reader™ quizzes is easier than ever with AR BookFinder™, the new, Web-based book-searching tool from Renaissance Learning™. With this free online tool, students, parents, teachers, and librarians can search for interesting and appropriate books quickly and easily—and open up a whole new world of reading possibilities.

Book Ratings are Now Available.

AR BookFinder is an open, free online tool that makes search capabilities accessible to anyone over the Internet.

With AR BookFinder, you can:

○ **Search for books** that have a corresponding Accelerated Reader Quiz. Search by reading level, interest level, title, author, subject, and more.

○ **Search for collections** featuring award-winning titles including ALA Notables and Best Books, Caldecott, Coretta Scott King, and Newbery; State Lists for all 50 states; and Librarians' Picks for the past 10 years and sorted by interest levels.

○ **Refine your search** based on interest level, fiction/nonfiction, English/Spanish, or topic.

○ **View book ratings** from students who've read the book and rated it in Accelerated Reader.

○ **See book details** including book summary information, ATOS™ book level, word count, page count, book cover photos, ISBN, and more.

○ **Print your book list.** Simply select the titles that interest you, place them in your AR BookBag™, and print a list of titles you can take to the bookstore or library.

Works Perfectly with AR BookGuide

Now, educators can create their own book lists in AR BookGuide™ and provide students with a keycode they can use to access the lists on AR BookFinder. Then students can print the book list, which includes call number information, for easy searching in the school library.
