

The Campus of Wickliffe December Newsletter

A Word From Ms. Durrah, Associate Principal

Dear Wickliffe Parents,

As we embrace the festive spirit and bid farewell to 2023, we're thrilled to bring you the latest updates and important information in our December Parent Newsletter. Here's what's happening at The Campus of Wickliffe this month:

Community Engagement:

Winter Drive: In the spirit of giving, we are organizing a holiday drive. We are collecting hats, gloves, scarves, and socks. Donations can be sent with your child December 4th -15th. Let's come together to support families in need during this season of giving.

Holiday Performances: Join us for our festive holiday performances featuring students from various grades. It's a wonderful way to celebrate the season and witness the talents of our young performers.

Winter Break: The winter break is scheduled from December 21st to January 4th. We hope this time allows you to create special memories with your family and recharge for the upcoming year.

As winter settles in, we want to share some important information to ensure a safe and smooth experience for our students during the colder months.

Layer Up: Encourage your child to dress in layers to stay warm during the chilly weather. Layers help regulate body temperature, especially when moving between indoor and outdoor environments.

Warm Accessories: Ensure your child has a warm coat, gloves, hat, and appropriate footwear for the season. We want them to be comfortable and protected during outdoor activities.

Dec. 4-Dec. 15

Holiday Giving Tree

**Dec.
6, 7, 13, & 14**

Winter Concert

Dec. 21-Jan. 4

Winter Break

Fun Winter Learning for Families

Winter Reading Challenge

- Create a winter reading challenge with a list of winter-themed books suitable for your child's age.
- Set a goal for the number of books to read during the winter break.
- Discuss the stories together and ask questions to enhance comprehension.

Winter Math Games

- Incorporate winter-themed math games to make learning fun.
- Use snowflakes, mittens, or snowmen as counting tools for basic math operations.
- Play math-related board games that reinforce skills like addition, subtraction, and multiplication.

Winter Nature Walks

- Take a nature walk to observe winter changes in your neighborhood.
- Collect winter items such as pinecones, twigs, or rocks, and create a nature-inspired art project.
- Discuss how plants and animals adapt to the colder weather.
