

## **Lab Safety Rules & Procedures**

### **Mr. Genovese - 6<sup>th</sup> Grade Science**

In order to safely participate in laboratory investigations, appropriate behavior is required. Students who violate the rules and procedures will be removed from the lab and given an alternate assignment.

1. Always follow the required safety procedures, listen to the instructions, and wear required safety equipment provided. If unsure, I will ask teacher.
2. Never eat, drink, or do any personal grooming (cosmetics, hairspray, etc.) during labs.
3. Never use glassware as food or drink containers. Do not taste or draw any materials in a tube with your mouth. Keep your hands away from your face during labs.
4. Remain in work area and behave properly.
5. Do not remove anything (equipment or materials) from the lab. Keep your workstation clean and uncluttered.
6. Use the lab equipment as intended and instructed.
7. Stay out of storage areas unless instructed by teacher.
8. Report any breakage of equipment immediately to the teacher.

**Failure to follow the rules and procedures outlined in the safety plan may revoke privileges to participate in lab investigations. Alternate assignments will be given to those who violate the rules, procedures, and lab instructions.**
