

WICKLIFFE CITY SCHOOLS

PUPIL TRANSPORTATION

All eligible students will be transported by either board-owned or contract bus whenever feasible and practical to do so. Students in grades K through eight living more than one mile from school of attendance are eligible for bus transportation.

The Wickliffe City Board of Education reserves the right to deny transportation to any student that conducts himself in such a manner as to endanger the safety and welfare of other student passengers.

In order to better serve the community, the Director of Transportation has the prerogative of allowing students, grades preschool through eight who live more than one-half mile and less than one mile from school, to ride the bus on an annual temporary basis, if unassigned seats are available on the regularly scheduled runs.

Parents may apply to the Director of Transportation between August 5, 2024 and September 15, 2024 an approval will be granted or denied by September 30, 2024.

The Director Transportation shall devise a formula of notification and acceptance with awareness that this could be temporary in the event of new residents needing bus seats. No special stops will be made. The students will have to walk to the designated stops.

Please return the completed form to the main office at your child's school.
